Faides Ngosa

Faides Ngosa is one of the youngest of the children. Both of her parents are no longer living and she was being taken care of by a family friend. She loves playing with balloons and she also likes playing with her small doll. Faides is a sweetheart and she enjoys being around people. She is also quite bright for her age. Do not be fooled by her quietness as she has quite a big personality. It comes out especially when she's dancing!
